REGISTRATION AT COLLEGE TUESDAY

CONSIDERABLE INQUIRY FROM PROSPECTIVE STUDENTS

MUCH DEMAND FOR WORK

Is Necessary for Some to Earn a Part of way.....Classes Wednesday

Registration will start at the State Teachers College Tuesday morning. President Uel W. Lamkin and Dean George H. Colbert will be at the College all day Monday to advise with those who come in to make inquiries regarding taking work or the courses. Dean Colbert is now working on the schedule and it will be ready by the first of this week. Members of the faculty are coming in each day from their vacations. Classes will meet for the first time Wednesday.

There in considerable inquiry now from those who expect to be students. President Lamkin said this morning that many of these people want work in order to help along with the expense of going to school. He thinks that it is important that these people be provided with work.

"There is an unusual demand among the students this year for work," said the President. "As the school develops it is necessary that Maryville offer odd jobs for the students who need them in order that they can make their lodging, their board or both."

Mr. Lamkin said that the indications are that there will be an increase in attendance this fall over the attendance of last fall, although nothing definite can be determined about it yet.

The College coal for the winter has been contracted for from a Moberly firm. The spur that runs from the Wabash freight switch to the lower house at the College is to be repaired in a short time so that the delivery of the coal may begin. Being a State institution the College will have a priority right in the delivery of coal.

A course in teachers training for people of high school rank will be offered for the first time this year at the College. The course is being put in owing to the fact Maryville High School does not have a teachers training department. The department was never installed at the high school on account of the State Teachers College being here. Work has been offered before in education for the high school people at the College but there has been no work in teachers training for them. When they complete the teachers training work for high school, students will be entitled to a State certificate running two years. The course will be taught by Miss Margaret Franken.

Another new course will be that of vocational guidance.

The new people on the faculty are Miss Mattie B. Dykes, who takes the place of Miss Anna M. Painter; Eugene A. Maynor, who takes the place of Russell E. Sprong; Luther A. Richman, who will take the place of Miss Jennie Garrett, and Miss Margaret Franken, who will have work of a nature similar to that carried on by her sister, Miss Kathryn Franken.

C. E. Partch, who will have the vocational guidance course and some work in the department of manual training, will be an added member to the faculty.

CAN'T BE ANY HOTTER IN DALLAS, TEX., THAN CANADA

This Is What Canadian Tells C. C. Corwin at Chicago Yesterday—Hottest in 25 Years

"It don't matter a bit where you are now," said a man in Chicago yesterday to C. C. Corwin of the Corwin-Murrin Clothing company, who returned this morning from a buying trip to Chicago, "it's hot every place. I have just come from Canada and will go from here to Kearney, Neb., and then to Dallas, Texas. No, I don't think the heat as I go south will affect me a bit for it is as hot in Canada as it can be and it is hot here in Chicago as it can be. It won't be any worse in Kearney or Dallas. Tuesday was the hottest day we have seen in Canada in twenty-five years."

WABASH TRAIN NO. 11 WRECKS TODAY

FIVE COACHES OFF THE TRACK AT BINGHAM.

TO RUN NO.14 TONIGHT

Remarkable Part About Wreck Is That No One Was Hurt—May be Due to Track.

Wabash train number 11, westbound, due in Maryville at 5:30 o'clock in the morning, wrecked three miles east of Bingham at 6:45 o'clock this morning, when the five coaches left the track. One of the remarkable things about the wreck was that no one was hurt.

Number 11 cleared here at 6.05 o'clock this morning, thirty-five minutes late. There were not many passengers. Only a few persons were riding in each of the day coaches and there were about enough passengers in the sleeper to fill all the lower berths. A report from Shenandoah this afternoon said that passengers told conflicting stories regarding the wreck. Some of them said that the train was going at a high rate of speed and others said that it was going slowly.

The train was just entering the Hossman cut. It is believed that the tender of the engine went off the track and that the other cars followed suit, as they came to the same place. The engine remained on the rails. The baggage coach and the first coach back of it remained upright, but the next two passenger coaches tipped party over and leaned against the bank of the cut. The sleeper remained in an upright position. At 11 o'clock this morning the engine of the wrecked train had been taken on but no wreckers had arrived to put the cars back on the track.

It was said in the report from Shenandoah that it is supposed that the wreck was caused by the spreading of the rails.

A train was made up at Stanberry and run to the wreck. It returned this afternoon as number 12, due here at 10:45 o'clock this morning. The passengers, mail and baggage of number 12 was transferred to it at the wreck. Number 12 was returned from the wreck to Omaha as Number 11.

A wrecker from Stanberry passed through Maryville on the way to the wreck at 12:47 o'clock today. It was said at the Wabash station here that it is the plan to run number 14 this evening, due here at 9:20 o'clock.

The track for about the length of five coaches was torn up in the wreck.

OLD GOLF COURSE WILL BE USED REST OF YEAR

Country Club Directors Decided to Keep off of the New Course Until Next Spring

The board of directors of the Maryville Country Club in session this afternoon ordered that the old golf course should be played on the rest of the year. The flags and boxes were ordered to be put back on the old course, tomorrow. The new nine hole course was opened a week ago but as the ground is in a very poor condition it was thought best to change back. Many players on the new course have lost many golf balls, it being reported that in one day eighty balls were found on the course. By next spring the new course will be in good shape to play on.

The proposition of planting some trees on the grounds was discussed. The plan of having each member plant one tree or for having a tree planting day were favored. Action on this matter will be taken up later in the fall.

Many of the members have expressed their desire to have some tournaments at the golf course and the board in its discussion this afternoon thought that the plan of tournments was a good one. Any tournaments which might be promoted will be under the direction of F. C. Miller.

Three applications for membership in the club were accepted by the board.

R. L. McDonald Manufacturing Co.

The Value of Buying Merchandise That You Know All About

When you visit a manufacturing plant and see an article made from the ground up—

See the care with which the raw material is selected and prepared and the thoroughness of every operation—

See the finished product as it goes thru the hands of expert inspectors—

You feel that you know that product and that you can go to your dealer and ask for it with absolute assurance that you are getting what you pay for.

HOME MADE THINGS BEST

That is why so many of us prefer home made goods—goods that we have seen made and know all about. We all like home cooking—women like to have many of their clothes made at home or by a dressmaker whom they know. We have confidence in the things we have seen made.

HOW ABOUT YOUR SHIRTS?

Few men have the opportunity of knowing how their shirts are made. In the old days when they were made in the home, materials were selected for wearing quality and beauty and you knew that you got your money's worth when you bought a shirt.

McDonald Shirts

of many types are manufactured right here at home—the only manufacturing establishment in Nodaway County. They are made in large, light, sanitary factory by expert union operators, from the best materials and with the most modern and efficient machinery.

These McDonald shirts are Maryville shirts and the fact that our Maryville dealer, the Corwin-Murrin Clo. Co., is one of the most successful distributors of the goods among all the thousands of concerns handling them throughout the country, indicates that Nodaway County men appreciate the quality of these home-made garments.

McDonald shirts are a nationally known product and everywhere enjoy a high reputation for money's-worth.

PROF. AND MRS. ATKINSON BACK FROM THE NORTH

Prof. and Mrs. E. W. Adkinson and their little son, Ross, returned last night from a 5-weeks' vacation and fishing trip among the northern lakes. They went some 250 miles north of St. Paul and Minneapolis, spending some time at Mille Lacs (Million Lakes).

At one time a forest fire broke out between the Atkinsons and their camp. Two small towns were destroyed. They made it back to the camp and found everything all right, by making a long detour.

Mr. Atkinson said that there has been little rain in the part of Minnesota where he was and that the forest fires are raging. At one town there had been on rain since the first of June. The leaf mold under the trees is so dry that a huge fire may easily be started from a cigar or cigarette butt.

On the Atkinson car was a Maryville sign and it attracted a lot of attention. They were stopped a dozen times while coming back across the state of Iowa by tourists who wished to inquire about friends here. At one time while they were at the side of the road a big Cadillac went past and then came back. It was Charles Haines of Sabetha, Kan.

FIRE THIS MORNING PUT OUT WITH THREE BUCKETS WATER

Burt M. Rowley, fire chief, recorded the third fire in his new fire record when the fire department made a run to 320 South Davis street about noon today to extinguish a blaze which had started near a wood shed. The fire was put out with three buckets of water and comparatively no damage was done.

CHILDREN TO GET OUT AFTERNOONS AS LONG AS IT'S HOT

The pupils of the grade schools went to school at 8:30 o'clock this morning and got out at 12:30 o'clock, after the entire schedule of the day had been run through. Superintendent L. E. Ziegler said today that this system would be continued until it gets cooler. Teachers say that it is not so bad in the school rooms in the forenoon but that after the middle of the day the heat in the buildings becomes intense.

Mr. and Mrs. Frank Adcock of St. Joseph are visiting at the home of Mr. and Mrs. W. A. Townsend. Mr. Adcock is a brother of Mrs. Townsend.

Before Baby Comes

THERE are thousands of expectant mothers who undergo much useless suffering for months before, as well as at the moment when delivery occurs. These months of suffering, with nerves and vital organs weakened, leave their effect upon the child. An eminent physician found the way to stop much of this unnecessary suffering—the same easy way which thousands of mothers have used for three generations.

Mrs. Walter S. Hadley, Bridgeport, Ind., says: "Before my little boy came I was so paralyzed in my hips and limbs I could hardly walk, and some days after a little extra exertion I couldn't walk a step. I felt it coming on this time; in fact, I could hardly get up when I sat down, but now, after using one bottle of Mother's Friend, I am so much better. I feel that I almost owe my life to Mother's Friend."

"Mother's Friend" is applied externally to the abdomen, back and hips. It penetrates remarkably, permitting the easier relaxation and distension of muscles, nerves, tissues and ligaments, and their constant easier readjustment during expectancy and at child-birth. Have no more fear or dread, mother! Start using "Mother's Friend" now—the sooner the better.

Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse, and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor, because I wasn't very sick—only about ten or fifteen minutes."

"Mother's Friend" contains no narcotics or harmful drugs. It is safe. For three generations "Mother's Friend" has relieved expectant mothers of much useless suffering. Mother! you must avoid mere greases and useless substitutes. Begin using "Mother's Friend" today. It is sold at drug stores—everywhere.

NEW CAR A DRAWING CARD.

Tha Star Viewed by Many Persons at Hathaway Show Rooms.

A continual crowd visited the show rooms of the Hathaway Motor Company, Eighteenth and McGee streets, yesterday to view the new rival of the Ford car—the Star, for which the Hathaway Company is the local distributors.

It was freely predicted by the visitors that the new car would become more popular than the Ford. The special features of the car were explained over and over by the staff of salesmen.

Illustrative of the manner in which the cars are being sold, C. E. Hathaway, president of the local company, said Sam Herrick, a dealer at Springfield, Mo., ordered five hundred Star cars for delivery as soon as possible. Delivery of cars will be made in about thirty days after an order is taken, according to Mr. Hathaway. Owing to the railroad strike, delivery may be delayed longer. Mr. Hathaway said he expected a train load of Star cars the first week in September.

"Arrangements have been made with two hundred dealers in this territory to handle the cars," said Mr. Hathaway yesterday. "Some of the dealers have been in Kansas City to look over the cars and all who viewed the models on display were greately enthused."—Kansas City Star.

THE BOARD OF DIRECTORS OF THE

People's Telephone Union

MARYVILLE, MO.

have ordered me to at once, disconnect each and every person's phone or line from the switchboard whose dues have not been paid up to Sept. 1, 1922, (and by the way there are a lot of them).

Better hurry if your dues are not paid, as I will begin Friday morning, with helpers, to follow out their instructions.

If your phone or wire is disconnected it will cost you for labor and material, besides your dues to get service again.

Remember, this is by order of the Board, and I must follow their order.

WM. WORLAND, Lineman.
